Instructions for the Poster Session

Many participants will attend the poster session at the event. Therefore, your poster should be clear and concise to have a positive impact.

Information on poster design

- The poster must be 1.20 m high and 0.90 m wide, and a rope must be included for hanging from the panel.

- The poster title should be in Arial or Calibri font, at least 72 pt, and include your name and affiliation.

- The poster can include a thank-you note to other professionals, companies, and support institutions for their help.

- The poster should contain a simple abstract, objectives, essential methodologies, main results, and conclusions.

- Poster texts should be concise and direct. The font size should be large enough to ensure readability from 1.5 to 2.0 meters. Trade names and logos may not be included in all text. Generic terms should refer to any commercial products used or investigated.

- Figures (including scales) and tables should be displayed in large letters for clear readability.

- The poster must be self-explanatory and should not need further verbal explanations.

The schedule for assembling and presenting the posters will be posted on the event's website.

The best poster will receive an award, with the selection being made by a judging committee.
